

I grew up on a farm in Pierce County, but now reside near the Satilla River in Brantley County.

I took an art class (teaching oils) in high school, other than that, I have had no formal training.

In 2002, I started my own cleaning business, where most of my clients live on St. Simons & Sea Island. One of my first clients was a wonderful artist, the late Mrs. B.A. Durkes, she introduced me to another client and fabulous artists, Mrs. Louise Eaton. Seeing their work, and passing through the beautiful marshes on a weekly basis inspired me to get back to painting.

I started painting again last summer, for the first time in at least ten years. Although I am painting with Acrylics now, I plan to return to oils, as well as explore other mediums.
