

Title:

Karen Keene Braswell is an award-winning academically trained artist who resides on St. Simons Island with her husband, daughter and five cats. She jokingly calls herself a "Hoosier by birth and a Southerner by choice... not chance."

Art is a family affair... husband Rance Braswell, owner of Commonwealth Realty, is responsible for marketing and promotion, when he's not busy selling islands. The blue crabs that daughter Martha caught at the pier and beach finds inspired the "crablet" and "Shells by the Inch" series.

Karen's numerous Limited Edition reproductions of local and regional landmarks capture the natural beauty of the coast and are painted on location. Her nature prints are available in fine gift/frame shops and art galleries along the Intracoastal Waterway and the Gulf Coast. The Braswells love to hike, camp and travel.
