**Subject:** Bio - Kathleen Moore

Kathleen M. Moore

Originally from Michigan, Kathy has lived in the New York Metro Area and the Washington DC Area. She was drawn to the beauty of St. Simons Island, and has made her home there since the summer of 2002.

Kathy's love for painting started in grade school art classes. She went on to pursue a business career which included numerous management positions at Hewlett Packard for a 30 year period. Traveling extensively on business, she always found time to visit local galleries and meet local artists. She took an early retirement in 1999, and began wintering on St. Simons Island. After 9/11, she decided to move to SSI permanently in June of 2002. She is a member and volunteer at the Glynn Art Association. She is fortunate to be a student of Jeanne Szabo at her studio in Brunswick. Every new class and painting is an exciting learning process.
